Another great week it was for **MTALX Energy** team in Johannesburg, SA where we attended the **The Coatings Group - #CoatingsforAfricaExhibition**. We had fruitful meetings and exchanges with various prospective clients in the coatings industries. We look forward to building on this and provide them with premium quality raw materials tailored for their production requirements all across **#Africa**.

To learn more about our extensive range of chemical products please feel free to go through our website: www.mtalxenergy.com or email directly your requirements to me on: kc@mtalxenergy.com

Reflecting on an incredible 3 days at Coatings for Africa 2024 last week, we're still riding the high from the energy and engagement at our **OXERRA Africa** stand! 🌟

Our Sales Team brought their A-game, showcasing our latest innovations and connecting with the vibrant community. The buzz around our booth was palpable, and the support from our loyal customers, new faces, and dedicated suppliers was nothing short of inspiring.

Amidst the dynamic atmosphere, we managed to capture a few of those special moments - because if it's not on social media, did it even happen? 📸

A massive thank you goes out to each and every person who contributed to making this event a landmark success. Your enthusiasm fuels our passion, and we can't wait to see what collaborations and opportunities unfold from here.

Here's to more colour, innovation, and community in the African Coatings Industry! 🌈

Today, I had the privilege of presenting WACKER's race to net zero carbon initiative at Coatings for Africa in Johannesburg.

For more information about our strategic direction and product offerings, we invite you visit WACKER booth B40 at the Sandton Convention Centre. We look forward to connecting with you.

My time at Coatings For Africa has been remarkably positive, leaving me thoroughly satisfied. The addition of new raw materials and suppliers on the show floor this year has been particularly delightful. Not only have I successfully arranged pre-planned meetings, but I have also had the opportunity to network with new individuals, enhancing my overall experience.
